## CAREER OPPORTUNITIES

This University Master has been created in response to the growing demand across a range of sectors for professional graduates with specific training in EU Law: from public administration at local, regional, national and EU level, to the businesses and other social, economic and legal operators in the EU internal market and the euro area, all of whom are bound by the EU Law.

The course provides an excellent foundation for students considering sitting a EU entrance exam in the future, and offers an extra-curricular work placement option (paid and unpaid) in public institutions and private companies.
