

About INSEEC Business School (IBS)

Business School is the most prestigious school within Groupe INSEEC, holding the French national accreditation of "Grande école de commerce". The business school strives to set itself apart along three main axes. First, by supporting men and women in their initial as well as their continuing education and helping them to define and bring to fruition their professional project within any type of organization, both in France and internationally. Secondly, in helping students a responsible and collaborative entrepreneurial spirit contributing to the creation of value in existing and new business activities. Lastly, in teaching students how to understand international practices and to meet the challenges of world markets.

Values behind IBS

INSEEC Business School continues to uphold the traditional values in which it was founded: the social, economic and cultural diversity of its learners; its history, placing general culture and humanist values at the heart of its instruction its multi-campus layout and strong anchorage in each of its regions; a Faculty involved in the creation and transmission of knowledge in response to the expectations of economic stake holders; and fostering a network of companies and alumni committed to its educational project and/or involved in its governance.

« The whole of France is a vast university of Art, Literature and Music... it is worth anyone's while to dally here for years. France is a seminar, a post-graduate course in everything »

Bordeaux

Students wishing to study within a traditional French city are encouraged to take courses in Bordeaux. Bordeaux is a port city situated in the southern part of France. It is the 9th largest city in France and a one hour drive to the seaside. Regularly classed at the top of the most attractive cities, Bordeaux can be discovered by biking along the boardwalk of the Garonne river or during an evening in one of the numerous nightlife spots. Although Bordeaux intends to keep its place of choice amidst the aeronautic and technology sectors it does not mean it is any less occupied with preserving its exceptional quality of life.
